6. OBLIGATIONS OF THE COMPANY

- A. **Undertakings:** The undertaking of the Company is to furnish service as ordered and specified by the Customer, and as limited by the terms and conditions of this Tariff and the contract entered into between the Customer and the Company. This offering is subject to the availability of Facilities. The Company undertakes to maintain and repair any equipment which it furnished to the Customer, unless otherwise specified in the contract entered into between the Customer and the Company. The Customer or User may not rearrange, disconnect, remove, or attempt to repair any equipment installed by the Company without the prior written consent of the Company.
- B. **Limitations:** The Company shall not be responsible for installation, operation or maintenance of any Terminating Facilities or communications systems purchased or connected to service by a Customer, unless otherwise specified in the contract entered into between the Customer and the Company. Service is not represented as adapted to the use of any specific equipment or system. The Responsibility of the Company shall be limited to the furnishing of service and maintenance and operation of such service. The furnishing of service will require certain physical arrangements of the facilities of the Company and is therefore subject to the availability of such facilities.
- C. **Liability and Indemnification:**
1. The Company shall not be liable for damage arising out of mistakes, omissions, interruptions, delays or errors, or defects in transmission occurring in the course of furnishing service. The Company will not be liable for any direct, indirect, incidental, special, consequential, exemplary, or punitive damages to a Customer or User as a result of any service provided by the Company or use of the Facilities, or the acts, omissions or negligence of the Company's employees or agents. The Company's liability for gross negligence or willful misconduct is not limited by this tariff.
 2. The sole remedy for a Customer or User with respect to failure of the Company to maintain proper standards or maintenance and operation or failure to exercise reasonable supervision shall in no event exceed an amount equivalent to the credit for a service interruption specified in the contract between the Company and the Customer or User. To the extent such regulations are applicable to the particular service at issue, or unless the parties to the written contract agree to different process, which terms shall govern over this tariff, the Company follows the Credits and Credit Allowances procedures as established in the PURA's rules.

6. OBLIGATIONS OF THE COMPANY (cont.)

C. Liability and Indemnification (cont.)

3. The Company does not guarantee or make any warranty with respect to equipment provided by it for use in an explosive atmosphere. The Customer or User indemnifies and holds the Company harmless from any and all loss, claims, suits, or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the Customer or User or by any other party or persons, and for any loss, damage or destruction of any property, whether owned by the Customer or User or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to maintain, removal, presence, condition, location or use of said equipment so provided.
4. The Company shall not be liable for any defacement of or damage to the Premises of a Customer or User resulting from the furnishing of Facilities or the attachment of the instruments, apparatus and associated wiring furnished by the Company on such Premises or by the installation or removal thereof, when such defacement or damage is not the result of negligence of the agents or employees of the Company.
5. The Company shall be indemnified and saved harmless by the Customer or User against:
 - (a) Claims for libel, slander and infringement or copyright arising from the material transmitted over the Facilities.
 - (b) Claims for infringement of patents arising from, combining with, or using in connection with, the Facilities and systems or apparatus of the Customer or User; and
 - (c) All other claims arising out of any act or omission of the Customer or User or their agents in connection with the Facilities, or information transmitted over the Facilities.

D. Provision of Facilities:

1. Upon agreement between the Company and the Customer, the Company will provide all Facilities necessary for service.
2. Provided the necessary Facilities are available, service will be furnished by the Company. Where Facilities are not available, terms for provision of service will be individually negotiated with the Customer.

7. SPECIAL CONSTRUCTION

Provision of service may require special construction of Facilities and equipment by the Company. Special construction arrangements of Facilities may be undertaken by the Company at the request of the Customer or User and upon determination by the Company that such charge should apply in the particular instance.

- A. Survey and Design. Prior to engaging in any special construction, survey and design studies may be required. Should that be the case, the Company and the Customer may agree to arrange for the performance of those studies, the review and acceptance thereof by both the Company and the Customer, and the appropriate charges therefore. Failure to agree on the performance of such studies, the acceptability thereof, or the charges therefore, shall constitute grounds for denial of the requested service by the Company.
- B. Charges for Special Construction. All recurring and non-recurring charges for special construction shall be set forth in the contract between the Company and the Customer, and shall be the responsibility of the Customer, regardless of the projected charges for the provision of service by the Company.

8. SPECIAL CHARGES

- A. Out-of-Normal Work Hours: The charges specified in this Section 7 do not contemplate work being performed by Company employees at a time when overtime wages apply, due to the request of the Customer, nor do they contemplate work once begun being interrupted by the Customer. If the Customer requests labor be performed at hours of the day or days of the week other than during normal working hours or days (8:00 a.m. to 4:30 p.m., Monday through Friday), or during holidays, or if the Customer interrupts work once begun, an additional charge may be imposed, equal to the actual higher costs incurred by the Company for overtime and materials.
- B. Maintenance and Service Charge: The Customer may be responsible for the cost incurred by the Company in connection with a maintenance and/or service visit to the Customer's or User's Premises when the difficulty or trouble results from the equipment or Facilities provided by the Customer or User, or when failure in the Company's equipment or Facilities is attributable to the Customer or User or their agents. Said cost shall be based upon the current labor rate and material costs of the Company in effect at the time of the visits.

9. SERVICE CANCELLATIONS

A. Discontinuance of Service by the Company:

The Company, by such written notice to the Customer as specified in the contract between the Customer and the Company, may discontinue furnishing service without incurring any liability beyond that stated in the contract, upon:

1. Non-payment of any sum due to the Company by a Customer; or
2. A breach of any of Customer's representations or warranties contained in the contract between the Customer and Company, or a violation by the Customer of any term or condition governing the furnishing of service as specified in this Tariff or in the contract for service between the Customer and the Company.

B. Cancellation of Service by the Customer Prior to End of the Contract Period:

When the Customer cancels the service prior to the end of the term of the contract, the Customer may be required to pay a cancellation charge in the amount specified in the contract between the Customer and the Company.

C. Cancellation of Application for Service:

When the prospective Customer cancels an application for service prior to the start of installation or special construction of Facilities by the Company, no charge shall be made to the prospective Customer. Where the installation of Facilities has been started prior to the cancellation, the prospective Customer shall pay a cancellation charge in the amount specified in the contract between the Customer and the Company. Installation or special construction of facilities for a Customer is considered to have started from the latest contract date or when the Company incurs any expense in connection therewith, whichever occurs earlier.

10. SERVICE INTERRUPTIONS

- A. General: The Company agrees to use its best efforts to assure continuous full time operation of the service. The Customer is considered to have experienced a service interruption when the Circuit becomes unavailable for use or the quality of transmission is such that the Circuit is effectively unusable.
- B. Service Restoration: The Company agrees to use its best efforts to respond to the Customer's reasonable request for maintenance in connection with the service as soon as reasonably possible. The Company shall have no obligation to perform maintenance which requires access to the Customer's or other premises or buildings when that access cannot be provided to the Company by the Customer. The Company agrees to use its best efforts to minimize the duration of any service interruption.
- C. Liability: The Company will not be liable for any direct, indirect, incidental, special, consequential, exemplary, or punitive damages as the result of any service interruption. The Company's liability for gross negligence or willful misconduct is not limited by this Tariff.
- D. Credits: The amount of credit for any service interruption, if any, shall be specified in the contract between the Customer and the Company.
